

Steveston Interchange Project

Work to remove the original overpass completed ahead of schedule

February 2025

Completed Early

Work to remove the existing Steveston Highway Overpass has been completed **ahead of schedule** and **traffic pattern changes will no longer be required on the weekend of February 28-March 3**, as previously indicated

East and westbound traffic has now been shifted onto the Phase 1 structure. The completed five-lane overpass will be fully open once Phase 2 is finished construction, which is anticipated for fall 2025.

Drivers are reminded that while Phase 2 is under construction, the northbound loop ramp will be closed with a two-lane left turn signal onto the northside ramp detour in place.

For the most up-to-date Project information on traffic impacts, visit the Highway 99 Tunnel Program [website](#). If you have construction-related questions, please email StevestonProject@flatironcorp.com or call **1-888-270-1075** (24/7).
